Dr. Donald Perry is Accepting New Tallulah Patients!

FOR IMMEDIATE RELEASE
November 13, 2026

Dr. Donald Perry, MD

Dr. Donald Perry, MD, has rejoined Outpatient Medical Center's Tallulah team, helping increase access to quality primary care for patients and families throughout the area.

Dr. Perry has previously served patients in Tallulah for several years before leaving the organization. Since returning on November 9, 2026, he has resumed seeing OMC patients again.

“I’m very happy to be back,” said Dr. Perry. “I hope that I can make my presence felt and make a great contribution while I’m here.”

Dr. Perry returns at a time of growth for the OMC Tallulah clinic, which now has three medical providers on staff. He also plans to connect with his patients with OMC’s behavioral health team through telehealth, a service that OMC did not offer during his first tenure. In addition, he is exploring ways to expand preventive care for adult patients, including more routine vaccinations.

Dr. Perry described his return as coming full circle. “It’s amazing how things go full circle. You always come back to where you start,” he said.

OMC's Medical Services team welcomes patients and accepts most major insurance plans, including Medicaid and Medicare. A Sliding Fee Discount Program is also available for eligible patients, helping ensure access to preventive care regardless of ability to pay.

Call 888-811-8081 to schedule an appointment or learn more about OMC's medical, behavioral health, and dental services.
